   B. State of the Campus Address by Tri-Executives Boneth Ahaneku, Joseph Soto, and John Lurquin  
      i. Questions from the council/audience:
         1. Rep. Ballard: It is nice to see that we have executives that will  
            provide us with this information. You talked about transparency  
            and I was wondering if you could elaborate.  
            a. Having bi-weekly reports, it helps the student body hold  
               us accountable on our performance. Monthly flyers  
               about the work the student government is doing will help  
               inform the students on campus. Monthly newsletters will  
               give students an easy opportunity to see what we are all  
               doing in student government.
         2. Rep. Bove: How would you address the student body on how  
            they can get more involved and involved with CUSG as a  
            whole?  
            a. We are doing a few things in the spring that will help with  
               this. We are hosting outreach events in the spring,  
               ranging from free bowling to how to write a bill  
               workshops to how to run as an independent candidate.
         3. Sen. Pettis: How are you going to improve voter outreach turn  
            out.
            a. We will reach out to other student leaders. We found out  
               that the structure of CUSG is complicated, so we need  
               to communicate how to form tickets to other student
organizations to make sure that it is clear. We want students to advocate for their wants and their needs.

4. Rep. Larson: With your outreach schedule, how do you intend to inform everyone?
   a. Start outreach at the beginning of the semester. We hope to utilize social media to reach out to students.

5. Rep. Hawkins: How do you plan on reaching out to those students who are not already involved with CUSG?
   a. Finding out what works best and using that effectively.

6. You touched on working with Boulder and housing. Are you working on any policies with how many residents can live in one house?
   a. Yes, over occupancy is a huge problem here in Boulder and it is very expensive.

7. You were talking about campus safety. What are your policy ideas?
   a. The first thing we are going to do is research the exact policies that we have in place.

8. Since it is a public campus, your policies have to follow the state policies. Could you make a specific gun control policy even though it is a public campus?
   a. We tried to a couple years ago. It was something that the university was very passionate about. Eventually the university was forced to retract that policy because of the Colorado Supreme Court.

   f. Creating a committee for the PAC12 conference to be hosted here. This would be in huge conjunction with the Executive Branch. If that is something you might be interested in let me know.
      i. What is the PAC12 Conference?
      1. Pres. Ahaneku: It is a leadership conference to have representatives come and unite to talk about what is going on in the conference and individual campuses. We talked about the current things that were going on on campus and came up with 2 initiatives. It is a great networking conference and a way for schools to learn and take back information back to their schools.
   g. Training for the budget process and the cost centers of the budgets that we control. We are going to have presentations from the cost centers about their budgets and what they do. These presentations will hopefully start when we get back from break. These people have very large budgets and we need to make sure we understand what is going
on. These presentations will be 5-10 minutes to understand how that operate. We are asking each of you to take a role in this training.
